

## VETERANS MARCH AT SHEBOYGAN

Most Imposing Military and Civic Display Ever Seen There.

## RANKS GROW THIN

Report of the Adjutant General Showing Condition of Order.

## DE GROFF IN FAVOR

Sheboygan, Wis., June 19.—One of the most imposing parades ever seen in a Wisconsin Grand Army encampment, was seen here this morning. It was a military and civic display that Sheboygan feels proud of. The business session of the encampment opened at eleven o'clock.

**Adjutant General's Report.**  
According to the report of the assistant adjutant general there has been a heavy falling off in membership during the period since January 1, 1900. At that time there were 10,193 members in good standing. The total gain since that time has been 700 and the total loss has been 956, leaving the membership on Jan. 1, 1901 at 9,937, a net loss of 356 members of whom 230 were lost by death.

There are 252 posts in the state in good standing. During the year one post surrendered its charter and eight posts failed to report to headquarters.

The financial statement shows a cash balance in the treasury of \$2,360.76. The treasurer received from his predecessor \$1,773.19 and collected in per capita tax and from the sale of supplies \$2,813.72, making a total of \$4,586.91. Disbursements were \$2,133.61.

**Membership Decreasing**  
As to membership, the Grand Army is on the down grade, not through any fault of the order itself, but because the remorseless hand of time knows no distinction of persons, and because since 1865, or thirty-six years ago, nobody has become eligible to membership. The veterans grow old in years, like everybody else, but they are still the youngest lot of aging men when they meet at their annual encampments. An effort has been made several times to do away with the parade at encampment time, but the people who provide the entertainment continue to insist upon seeing the veterans in line, and each year they consent, with the proviso that it is "just for this time only, and we will not march again."

**Talk of the Next Commander**  
The contest for department commander bids fair to wear itself out before it comes to the ballot, if one is to judge from the expressions of opinion heard on every hand. Thus far all the talk is in favor of Allen H. De Groff of Buffalo county, and there is no doubt that he will be elected, by a decisive majority. Waupaca and Minnera Point are in the field for the next encampment in addition to Milwaukee.

## LOOKS LIKE LATE SEASON AT NOME

Ice Floes Are One Hundred Miles Farther South Than in June of a Year Ago.

Seattle, Wash., June 19.—Now that

all of the steamers on the first voyage have departed for Nome and the time draws near when several of them are scheduled to arrive back, the question of when the vessels will succeed in getting through the ice in Bering Sea is one of paramount interest. The meager reports that have arrived back from the vessels already in the north render it almost certain that the fleet will be much later getting through the ice this year than last season. The ice floes are fully one hundred miles farther south than at this time last year.

Generally by this time the steamers have been able to reach the Pribyl islands in the Bering Sea, but when the Lackmen sailed from the west coast of Alaska it was reported that these islands were entirely surrounded by ice. Unless an open channel should be found by some adventurous captain it will yet be some time before the vessels can reach the roadstead at Nome.

All signs point to an extreme late season which will result in a shorter working season for prospectors who go this season. Navigation will probably be from two to three weeks behind last year.

## GARMENT WORKERS PLAN TO STRIKE

Over Three Hundred Thousand of Them in New York State Are Making Demands.

New York, June 19.—A strike of three thousand garment workers in this state during the next month is said to be contemplated. The garment workers have been gathering strength for a long time to make a decisive struggle in the east for recognition and their leaders are of the opinion that the time is now ripe for the struggle. They demand shorter hours, better sanitation for factories, improved conditions of labor, increase in wages, recognition of the union and the adoption of the union labels.

## HOMEOPATHS WILL MEET NEXT WEEK

Programmes have just been issued for the thirty-seventh annual meeting of the Homeopathic Medical society of the state at the arcade of the Plankinton in Milwaukee, June 26 and 27.

The session Wednesday, the opening day, will be called to order at 9 a. m. by President Isaac Buckridge of Beloit who will make a short address. Those taking part in this will be T. C. Duncan, Chicago; W. B. Hinsdale, Ann Arbor; Q. O. Sutherland, Janesville; A. R. F. Forb, Milwaukee; L. C. Hedges, Onalaska and A. G. Leonard, Whitewater.

## CAPT. CHYNOWETH TO COME

Wisconsin Officer Detailed for Duty in National Guard

Washington, D. C., June 19.—Captain Edward Chynoweth, Seventeenth Infantry, now on sick leave at Columbus, O., has been ordered, upon expiration of that leave, to report at Madison for duty in connection with the National Guard of Wisconsin until Sept. 1.

## Successor to Dr. Flagg.

Oshkosh, Wis., June 19.—Advice from Ripon tonight are to the effect that the trustees of Ripon college have decided on a successor to Dr. Flagg as president. From an authoritative source it is learned that announcement will be made tomorrow that the Rev. Richard C. Hughes, president of Imous call by the trustees.

## MANIAC SHOT DOWN IN ROCKFORD; CAUSES TERROR IN RAILWAY DEPOT

Shoots at Everybody in Resisting Arrest by the Police—Wild Scramble for Safety.

Rockford, Ill., June 19.—A maniac supposed to be A. G. Peterson of Chicago, took possession of the Illinois Central station here last evening, opened fire with a revolver upon everybody in sight and was fatally shot by officer Frank Sully while resisting arrest.

The depot and platform were crowded with people and several had narrow escapes.

After he had cleared the waiting room of people the man took a position in the center of the room and opened fire on the ticket office. Officer Sully of the city police force attempted an arrest and was twice shot at. The policeman returned the shot one bullet taking effect.

During this time the man had not spoken a word and he died on the way to the hospital without regaining consciousness. On his person was found a card bearing the name of A. G. Peterson of Chicago. Written in Swedish was also found what seems to be a will. It reads:

"I give to my daughter, Edith Peterson, all that I have in trust until she becomes of age, when it shall become

her own. My secret I carry with me to the grave. A. G. Peterson."

By this it is believed that he intended suicide. So far as can be found Peterson was a total stranger in Rockford. He visited a bakery a little before seven o'clock and bought two pies and a cake. He refused to take his change and went directly to the Illinois Central depot. Entering the waiting room he began shooting in a circle, and without apparent aim. The bullets whizzed in every direction, and as rapidly as one chamber of the weapon was emptied, he would fill it from his pocket giving no opportunity to overpower him.

Peterson was apparently about forty-five years of age. He was above the medium height, and had a light mustache. His clothes were black and nearly new, but of cheap material. Apparently he was not accustomed to hard labor, and his face bore the look of a man of refinement.

Policeman Sully is widely known as the largest policeman in the United States. He has been a member of the Rockford force for many years.

## DR. PEARSON'S \$200,000 ASSURED; ENDOWMENT FOR BELOIT COLLEGE

The Trustees Are Likely to Announce This Evening That the \$150,000 Necessary Has Been Subscribed—First Class in 1847.

Beloit, Wis., June 19.—At the conclusion of the program this afternoon President Eaton announced that the conditions of Dr. Pearson's gift had been met and the college would get his \$200,000.

President Eaton also announced that he would stay with Beloit college.

Beloit, Wis., June 19.—The first class of Beloit college which held its reunion on Monday, entered the college in 1847, while the state was a territory. The corner stone of the first building, Old Middle College, was made after the class matriculated. No building was in evidence until the sophomore year and no president until the senior year.

The class graduated in 1851, just fifty years ago. President Chapin, Prof. Joseph Emerson, Prof. J. J. Bushnell and Dr. Lathrop constituted the faculty. The graduating exercises were in the grove just south of Middle College, where the art gallery now stands. The class was one of the very first ever graduated from any college in the western states, a class which had graduated at Knox

## FIRST STEPS TO FORM NEW CREED

Committee on Revision Holds Session in Secret at Pittsburg to Draw Up Amendments.

Pittsburg, Pa., June 19.—The new committee on creed revision appointed by the general assembly of the Presbyterian Church General Assembly at Philadelphia held its first session here today. It had planned for the committee to meet at the First Presbyterian church, but the pastor, Dr. Mac Land Alexander, is so bitter an opponent of creed revision that he refused to admit the use of the church. The committee accordingly met in the Shady-side church.

The meeting was secret. Organization was effected by the election of Dr. Minton as chairman and of Dr. Roberts as secretary. Dr. Roberts is not a member of the committee, but is an earnest advocate of a declaratory act, and as he has already one prepared he will be used by the subcommittee appointed to draw up the "summary statement of the reformed faith," as well as to aid in the draft of the declaratory act.

Drs. Herrick Johnson and John De Witt were made members of the subcommittee to prepare the brief statement. Committees were appointed to suggest changes in the constitution and to prepare new chapters on "The Work of the Holy Spirit," on "Missions," and on "The Love of God."

## LATEST FOREIGN NEWS.

**Chinese Soldiers Kept Out.**  
Peking, June 19.—The foreign ministers have declined to assent to the request to allow 3,000 Chinese soldiers to come to Peking now. They consider that it would be inadvisable to permit such a step to be taken before the latter part of August, by which time the international troops, with the exception of the legion guards, will have left the city. The ministers also declined to permit international troops to guard the forbidden city until the Chinese soldiers shall arrive.

**Permits Duelling in Austrian Army.**  
Vienna, June 19.—Baron Elder von Kreighammer, minister of war, has issued a sensational edict to the army in which he permits duelling. The edict says that any officer refusing to accept a challenge is to be branded as a coward and summarily dismissed from the army. The edict has caused great commotion both among army officers and anti-militarists.

**Greece Menaced by Crisis.**  
Athens, June 19.—A scandal threatens to disrupt the entire Greek army system. Inefficient officers have been promoted because they were favorites or because they had funds to buy promotion. The matter will be the subject of numerous interpellations in the chamber and a ministerial crisis is threatened.

**Craig-Y-Nos Not Sold.**  
London, June 19.—Craig-Y-Nos Castle, the picturesque residence of Adeline Patti (Baroness Rolf Cederstrom) in Wales, was put up at public auction this afternoon, but as there was no bids above reserve price it reverted to the owners.

**Kept from Killing Kaiser.**  
Berlin, June 19.—Seven anarchists were arrested in Hanover in connection with Emperor William's visit there. Two of the men were Austrians and were expelled from the country.

**Riots in Rio de Janeiro.**  
New York, June 19.—A private cable dispatch received in this city today from Rio de Janeiro says: "Serious rioting is going on here, brought about by increased street car fares."

**College Having Preceded This by a Year or Two.**  
The fact is worthy of notice. When the class sought to equip themselves for the study of the classics they discovered that there was not a lexicon to be found or sold in the whole state of Wisconsin and Prof. Emerson was obliged to send east for text books.

Today promises to be the greatest commencement that Beloit has seen in many years. The trustees have been in close consultation since early Monday evening, and though they have given nothing out publicly, it is understood the \$150,000 necessary to secure Dr. D. K. Pearson's gift of \$200,000 is in sight, and they hope to announce it at the close of the graduating exercises this evening.

Yesterday was given over to the Rice prize extemporaneous speaking and the class day exercise. The college alumni held their banquet and meeting last evening. Their orator failed to come and the poet, the Rev. S. T. Kidder of Ripon, Wis., sent the poem by mail. The president's reception took place at Emerson hall.

**PYTHIAN KNIGHTS ARE IN SESSION**  
Report of the Grand Secretary Shows that the Order is Growing in Wisconsin.

Waukesha, Wis., June 19.—The second days' session of the Knights of Pythias state convention opened at ten o'clock this morning. Grand Chancellor Burns stated in his annual report that reports from all lodges, received up to May 20, indicate a membership, in this domain, of 8,333, showing a gain since January 1 last of 413. There are eighteen lodges which have not been heard from.

The total membership in the supreme domain on January 1 last was 518,944, a gain for 1900 of 24,438, and a gain of 120 lodges, which now numbers 6,860 in the country. The grand chancellor recommends a change in the system of electing officers by the adoption of the Ohio plan, which seems to simplify matters materially.

Brigadier-General C. D. Lisle of the Wisconsin brigade, uniform rank, also delivered a report today, in which he stated that at the time he was elected commander of the brigade, Colonel John B. Zain was chosen commander of the first regiment, Milwaukee; that the uniform rank is in a flourishing condition, and that it promises to be still more important and successful in the future.

There is no important legislation likely to come up for disposition at this session and therefore the lodge politics appear to be the most engrossing question. The position most coveted is that of grand keeper of records and seals, the position now held by Frank Barry. Madison was selected for the 1902 meeting.

enrich the farmers who engage in this industry. When asked today why more beet sugar was not produced he said: "Over forty factories will be at work this fall, many with increased capacity. The principles now applied to this industry have heretofore been used in the production of oil. At Lehigh, Utah, three new factories have been established being located twenty, twenty-three and twenty-two miles apart.

The juice is gotten out of the beets by diffusion, and is run in pipes to the central factory. There is activity in the sugar industry from New York to San Francisco. There has been a steady growth in these sections during the last four years. But there has been a pause since the discussion of the Porto Rican question began. When that discussion began capital hesitated to advance money to be invested in the beet sugar industry of this country.

"There is no doubt about the ability of our people to make sugar in competition with any of the sugar makers of the world, that is as soon as we have had time to apply American ingenuity in the fields and factory and to utilize the by-products."

## KRUGER AND BOTHA CANNOT AGREE

Ex-President Refuses to Offer Any Concessions—This May End the Boer War.

London, June 19.—The Sun, which has not heretofore been over-renewable on this subject, hears that Mr. Kruger has actually cabled to General Botha declining to concede anything, and that in consequence of this decision, General Botha and the commandants agreeing with his peace views have decided to repudiate Kruger's authority. As a result of this decision a further consultation with Botha's representative and Lord Kitchener will be arranged for next week.

## GENERAL VACCINATION LIKELY.

Increase of Smallpox Causes Indiana Officials to Consider Plan.

Lafayette, Ind., June 19.—The alarming increase of smallpox in this state has caused the health authorities to consider a plan of general vaccination. Gov. Durlin and Secretary Hurley have consulted on the subject. The board proposes to draw on the epidemic fund and by this means furnish county health officers with vaccine virus to be used for general vaccination purposes. Those who cannot afford to pay for the operation will be vaccinated free of charge. This will result in a vaccination crusade in each of the 96 counties of the state.

## Russell Sage Sued.

New York, June 19.—In the Supreme Court of this state a suit for \$25,000 has just been brought against Russell Sage, who introduced the business of trading in "puts" and "calls," by Robert D. Vroom, who for years has been accustomed to buy these privileges from him. The action is an outgrowth of a difficulty that occurred on May 9, the day of the panic.

## Accidentally Shot; Dies.

Eldorado, Ill., June 19.—Lawrence Martin, who was accidentally shot Sunday, died Sunday night and was buried yesterday. He was a brother of Professor R. S. Martin of this city.

## Three Confess to Burglary.

Upper Sandusky, O., June 19.—A special grand jury yesterday afternoon returned five true bills for burglary, three of whom, Clifford, Mell and George Gleser, pleaded guilty and were sentenced.

Miss Lillian Bauer of Kilbourn City is the guest of Miss Nellie Blakley.

## COL. CHINN IS ON THE WATER WAGON; UPSETS TRADITIONS OF KENTUCKY

All Owing to a Sweet Faced Little Woman Down in the Blue Grass State.

New York, June 19.—"What'll you have children?" asked the man in the straw hat as the party of five leaned against the Hoffman House bar.

"A glass of mineral water, if you please," answered the colonel, tilting his wide-brimmed black felt hat a bit more to the left. His friends gasped. "Mineral water!" they exclaimed in chorus unwilling to believe their ears.

"Yes, gentlemen," responded Colonel "Jack" Chinn of Kentucky. Mineral water and nothing else unless it be sarsaparilla. I'm on what you yanks call the 'water' wagon.

Wouldn't be able to tell bourbon or rye from maple syrup by the sense of smell. Don't want to be able to tell by the sense of taste.

"How did it happen?" finally asked the man in the tuxedo coat.

Colonel Chinn slowly sipped from the cup that neither inebriates nor cheers and said:

"It was this way. Down in Kentucky there is a little blue-eyed woman who has stuck to me through thick and thin. She's the best woman in the world gentlemen, and the

most patient, and the most forgiving, my wife, gentlemen!" and the wide brimmed hat was removed.

Three months ago she told me that all the trouble that I have ever had was caused by whiskey. I agreed with her. She suggested that I quit it. She did not command me to leave it alone. Had she done that, such is the workings of the masculine mind, I would probably be standing here with a brown bottle at my elbow. She just suggested that I cut it out—sort of intimated that it would be a good thing for the Chinn family.

"You've had a pretty good time during your sojourn on this earth colonel," said she, "and I've got an idea in my mind that from now on you will be better off divorced from strong drink."

"I pondered over her words, and that same night I went to her and said: 'My dear girl, I've quit. No more for me.' She didn't say a word. She just reached up and pulled my face down, and gentlemen, to my wife, if you please."

The glasses were drained and Col. Chinn walked away.

## END WAS SUDDEN FOR GOV. PINGREE

His Son Was the Only Watcher at His Death Bed.

## SHOCKS MICHIGAN

Was One of the Most Popular Public Men Ever in That State.

## TO BRING BODY HOME

London, June 19.—The body of Ex-Gov. Pingree lies today in a bed room in the Grand Hotel occupied by the governor during his illness. It will be removed to the undertaker's tonight for embalming. It is expected that the remains will be shipped to Detroit Monday.

The remains were watched all night by strangers. The son, who has spent the last four days at his father's bedside was prostrated with grief when the end came and friends persuaded him to take a little rest.

Ambassador Choate and many other Americans in London have left cards expressing regret for his father's death. Many telegrams of sympathy are also received.

London, June 19.—Hazen S. Pingree, former governor of Michigan, died here at 11:35 last night. Hazen S. Pingree, Jr., his son, was the only person with the former governor when he died. The attending physician left the house at 11:15, promising to return shortly. Young Pingree, who had been watching at his father's side for four days, and who had not removed his clothes during that time, noticed a sudden change in his father's condition. He had hardly reached the patient's bedside when his father died peacefully, without warning, and without speaking one word.

## Life as Active One.

Hazen S. Pingree, twice governor of Michigan and four times mayor of Detroit, was born at Denmark, Me., Aug. 30, 1842. He was a lineal descendant of Moses Pingree, who came from England in 1640 and settled at Ipswich, Mass. Jasper Pingree, father of Hazen, was a farmer and the future governor and mayor spent his boyhood days after the manner of other farmers' boys of that period. He tired of the life, however, and when 14 years old left the farm and began work in a shoe factory at Hopkinton, Mass., where he learned the trade of cutter. Mr. Pingree served with distinction during the civil war, and at its close started a shoe business in Detroit. Mr. Pingree was elected mayor of Detroit in 1886, defeating for re-election John Pridgen, Jr. During his term of office as mayor Mr. Pingree suggested and assisted in carrying out a plan for the relief of the city's poor, and the incident contributed largely to the spreading of his fame. He instituted a system by which unimproved property was given up to the cultivation of potato patches by the poor. Thus they were enabled to secure by their own labor a portion of their food at small expense. The experiment was successful from the beginning, and it gained for Mayor Pingree the sobriquet of "Potato" Pingree. Through his influence the great street-car strike, which for a time nearly paralyzed the industries of Detroit, was settled.

Miss Lillian Bauer of Kilbourn City is the guest of Miss Nellie Blakley.

## PRACTICAL EDUCATION FOR BLIND; METHODS EMPLOYED AT STATE SCHOOL

Object Was to Give Them Training So That They Could Be Independent.

Now that the State School for the Blind has closed for the summer, the teachers are entering upon the enjoyment of their well earned vacation and when they return to their work next fall many of them will have enriched their fund of pleasant experiences very materially.

Mrs. Johanna Jones, who has been the efficient piano teacher of the school for many years will sail next week for Europe, accompanying her son and daughter, Mr. and Mrs. Chas. K. Adams of Grinnell, Ia. Mr. and Mrs. Adams expect to spend a year studying music in Germany but Mrs. Jones will return home in time for the opening of the school next fall.

Miss S. Augusta Watson to whom the state school is also indebted for many years of active service, left yesterday for Georgia where she will visit an invalid brother.

Miss Esther Butts, who has been elected principal of the state school for the next year, will spend the summer at her home in Viroqua, engaging in institute work as an instructor for a part of the time.

Miss Jeanette Beckwith, the vocal teacher, will spend the summer in Chicago studying and Miss Fairfield, the kindergarten, will also pursue her studies at the university of Wisconsin summer school. Miss Elizabeth M. Abbott will spend her vacation at her home in Baraboo and Miss Eleanor Parks has gone to Ripon to spend the summer with her aunt.

Herbert W. Adams, the violin teacher and orchestra director, will spend his summer at his home in Soldier's Grove and William F. Hursey, teacher of piano tuning, will visit at his old home in Ohio, during which his work in this city will be attended to by his assistant, Joseph Langerkamp.

It is a fact worthy of note that after the concert given by the orchestra from the State School for the Blind at Milwaukee last week, four members of the orchestra were offered a position for the summer at one of the Milwaukee summer gardens, the financial inducement offered being very flattering.

The four young men who received this unexpected offer, in which was embodied a high compliment to their musical ability, are Roy Carter, of this city, pianist; Chester Parish, trombonist; Leo Lange, violinist; and Walter Getzinger, cornetist. Each one of the young men is an independent musician capable of playing in any orchestra, a fact which was recognized by the management of the summer garden and a fact that speaks volumes for the practicability of their musical training.

## RADIANT JUNE, THE MONTH OF ROSES, IS THE FAVORITE TIME OF HYMEN

Radiant June, the month of roses and of graduates, is also the favorite month of Hymen. May is the most unlucky month of the year to get married, but June is the most popular. There are many superstitions regarding marriage, and even the woman who most strongly professes skepticism is not exempt from them. The relative merits of the various months with regard to matrimony are set forth in the old rhyme which runs:

Marry when the year is new,  
Always loving, kind and true;  
When February birds do mate,  
You may wed, nor dread your fate.  
If you wed when March winds blow,  
Joy and sorrow both you'll know.  
Marry in April when you can,  
Joy for maiden and for man;  
Marry in the month of May,  
You will surely rue the day;  
Marry when June roses blow,  
Over land and sea you'll go;  
They who in July do wed,  
Must labor always for their bread.  
Whoever wed in August be,  
Many a change are sure to see.  
Marry in September's shine,  
Your living will be rich and fine.  
If in October you do wed,  
Love will come, but riches tarry;  
If you wed in bleak November,  
Only joy will come, remember.  
When December's snows fall fast,  
Marry, and true love will last.

Of the days in the week Wednesday is the best and Saturday the worst on which to get married. The old rhyme runs:

Monday for wealth,  
Tuesday for health,  
Wednesday the best day of all,  
Thursday for crosses,  
Friday for losses,  
Saturday no luck at all.

A bright wedding day is a good omen. "Happy is the bride that the sun shines on," is an old, old maxim. If we are to believe superstition a bride's happiness depends not a little on what she wears. "Something

of all **STOMACH**  
Tonics. **BITTERS**

They are not only artists but they are practical musicians who are capable of earning a living at any time with their favorite musical instrument and whose talent and musical art are none the less because they can be used to financial advantage.

The work which William F. Hursey has done at the state school is also worthy of commendation and as results are the most eloquent testimony, a few facts regarding his work may be of interest. Mr. Hursey has been in charge of the piano tuning department for the past four years. Much of his success is due to the fact that he has been in perfect harmony with the superintendent whose ambition was not only to teach the students piano tuning but the art of getting the pianos in tune, not only to be experts at the business but to be experts at getting business.

This has been the policy of instruction followed. Young men have not been encouraged to study piano tuning simply because piano tuning had long been accepted as one of the professions open to them. The students in piano tuning have been chosen with regard to their special fitness for the work and this fitness has been determined equally by their musical ability and their qualifications as business men. To young men entirely lacking in business ability and not possessing the personal address likely to secure patronage, a technical knowledge of piano tuning would be of very little value.

Mr. Hursey has one-half of the piano tuning trade of this city, besides enjoying a liberal patronage in Beloit, Evansville, Whitewater and several other of the surrounding cities and towns. On his trips he is accompanied by some of his students, who are thus taught the practical side of the work. The piano tuning course covers four years and is taken up in connection with the other work. Students who desire return for a one-year post graduate course which is devoted entirely to piano tuning.

During the past year Mr. Hursey has had a class of fourteen young men who will complete the course within the next three years. If the present policy of education is carried on these fourteen young men will be graduated as expert piano tuners and repairers and will go out into the world as self-supporting, independent citizens, capable of taking their place among the business men of the day.

This may not be trained education as it is interpreted by some few people but it will impress the general public as an eminently practical education and one which will be of benefit to the individual and to the state.

old and something new, something borrowed and something blue," is invariably regarded by brides. According to an old rhyme:

Married in white,  
You have chosen all right.  
Married in gray,  
You will go far away.  
Married in black,  
You will wish you were back.  
Married in red,  
You had better be dead.  
Married in green,  
Ashamed to be seen.  
Married in blue,  
You'll always be true.  
Married in pearl,  
You'll live in a whirl.  
Married in yellow,  
Ashamed in the fellow.  
Married in brown,  
You'll live out of town.  
Married in pink,  
Your spirits will sink.

Here are some bridal don'ts:  
The bride must never, never wear her complete bridal outfit until arrayed for the ceremony.  
She must also put on her right shoe first, and try on her wedding ring only at the altar, never removing it afterwards.

She should not neglect to weep a little on her wedding day, no matter how happy she is.

She must be careful not to look at herself in the glass after her costume is completed and before she is actually married.

The bride must not take any hand in sewing her wedding gown or in making her wedding cake.

There are many superstitions connected with bridal finery. The finding of a spider on the wedding gown by a bride is considered a sure token of happiness to come.

Other lucky omens are:  
The bridegroom who carries a miniature horseshoe in his pocket will always be lucky.

The bride who dreams of fairies on the night before her wedding will be thrice blessed.

On the other hand if a bride should by chance see a coffin as she starts off on her wedding tour she should order the driver of the carriage to turn back and start over again. She may miss a train by so doing but if she neglects the precaution she will rue it. At least so says Dame Superstition.

If during the marriage ceremony the wedding ring should fall down, the bride's fate will not be an enviable one.

Never get married on board ship;

If you can't get married on dry land stay single.

Never give a telegram to a bride or bridegroom on the way to church; this is a sure omen of evil.

## PROF. GLEASON TO EXHIBIT TONIGHT

While the copious rains of Tuesday greatly rejoiced the hearts of the farmers, it was also the source of keen disappointment to the people that came to the city from the surrounding towns expecting to witness the exhibition to be given by Prof. O. R. Gleason at the Fair Grounds but which on account of the storm was necessarily postponed to this evening when the first exhibition will certainly take place.

As an educator, lecturer and subduer of vicious horses Prof. Gleason is now the recognized colossus, as he stands today without a peer in his business.

The ugliest brute of a horse on earth soon becomes submissive and tractable by his methods and indomitable will power. All who attend this evening will enjoy an evening of great pleasure.

## STANDARD PLAYS AT MYERS GRAND

The Nielson Company Making a Good Impression—"Young Mrs. Winthrop" the Bill Tonight.

The "Pearl of Savoy" was the bill presented at the Myers Grand last evening by Hortense and Marie Nielsen and their excellent company. The play is a beautiful one which appeals especially to the high class of theatre goers and indeed this is true of all of the plays in this company's repertoire. The "Pearl of Savoy" was presented in a very creditable manner last evening, the two Nielsen sisters showing to much greater advantage than on Monday evening.

Miss Hortense took the leading part very prettily and with dramatic spirit while Miss Marie was quite bewitching in the dashing part of Chouchou. Her singing is of high order and is quite a feature and her singing of the drinking song with the accompanying tipsy scene merited the hearty round of applause which it received. The support was very good, Annie Hamilton in the double role of Mother Margaret and Mademoiselle d'Elbie and J. H. Lewis as the father being notably so. Tonight the company will present "Young Mrs. Winthrop" one of the prettiest plays in the repertoire and a well known New York success.

Mortgaging the Bad Lands

In consequence of the abandonment of lands in the arid region there is now a deserted belt on which are situated deserted towns and vacant homesteads. New England which has lent the most of the money for the building of the West, lost enormous sums by the desertion of these farms. The shrewd New Englanders had for so long a period found excellent security and high interest paying investments in Western farm mortgages, that, being ignorant of arid land conditions, they readily offered their cash to help the settlers of the plains. In many cases clever swindlers realizing what was sure to happen, took up homesteads for the purpose of putting mortgages on them, after which they abandoned them.

## Our stock of FANS.

Warm weather was somewhat slow in getting here this year, but we knew it would come and prepared in advance for it. How well we made it possible for people to fortify themselves against the stuffy atmosphere of an overcrowded room, the temporary discomfort brought on by too much dancing, and other situations, is shown by our unusually complete stock of Fans. We have decided novelties in large flat fans, such as palms with fancy handles and large palms made of selected stock, plain and fancy Ning Poo's, which also make excellent brush broom holders, and common palms

## Of Folding Japanese

paper fans we have an immense variety, all white light fancy effects; and beautiful medium dark and black and white creations. A finer lot of inexpensive folding fans this store never displayed. They make dainty presents. For fancy silk and gauze fans ranging in price from 75c to \$3, here is the place to come. Large new lot just received. Beautiful styles at 1.00, 1.25, 1.50, 1.75 \$2.00. 2,000 fans to select from

## Sheets and Pillow Cases

We carry them in several grades and sizes. Ours are made of old and tried brands of sheeting and will cost you only a little more than the goods by the yard. We placed an order recently for several hundred sheets and cases and bought them at a very low figure. Among other makes we carry the popular "Defender" brand, so much talked about in all the magazines. It hardly pays to make them at home now.

## Bamboo Portieres, Rope Portieres.

They are well liked, especially at this season, making a cool, pretty screen for a doorway. Our showings will interest you. They do not cost much and yet the styles are excellent. During the last few days we have received about fifty of these Portieres, making a splendid variety to select from.

## SHOT BY A FORMER MINISTER

**Dr. Jessup Fatally Wounded by the Rev. Charles Adams at Berkeley.**  
Berkeley, Cal., June 19.—Dr. J. G. Jessup, a dentist, was shot and fatally wounded last night by the Rev. Chas. Adams, formerly an Episcopal minister. It is stated that Adams' daughter called Jessup up by telephone and asked him to come to her house and prevent her father from whipping her. When Jessup arrived at the Adams house and remonstrated with him, Adams drew a revolver and shot the dentist through the breast. Adams is in jail and Jessup is dying.

A San Francisco dispatch says: The Rev. Charles D. Adams, who shot and probably fatally wounded his friend, Dr. J. G. Jessup, when the latter remonstrated with the former clergyman for abusing his daughter, is well known throughout the east. He was born about fifty years ago in Delaware county, New York. He was ordained as a deacon in the Episcopal church in 1872 at Gambier, Knox county, Ohio, and as a priest in 1875 at Catskill, Greene county, New York. He held the pastorate of St. Mark's chapel in New York city, also of the Church of the Internation in the same city. He also filled pulpits in Fremont and Cincinnati.

His last charge was in St. Andrew's in Oakland, from which church he was dismissed on account of habitual intemperance. Dr. Jessup and Adams had long been friends. Adams says he was drunk when he did the shooting. Jessup is still alive, but his condition is considered hopeless.

## MAY NOT GET THE DEGREE.

**President McKinley Must Be Present to Receive Harvard Honor.**  
New York, June 19.—According to a Boston dispatch to the Herald, President McKinley will not be present at the commencement of Harvard university to receive the degree of LL. D. and the university will not confer the degree in his absence. When President Eliot was informed that Mr. McKinley would not be present, he said: "If Mr. McKinley is not present at the commencement the degree will not be conferred upon him, as there would be no opportunity to do so. Formerly a degree was conferred occasionally during absence, but the custom of the college for several years has been to present the degree to those only who present themselves in person on commencement day. I presume that the custom will be adhered to this year."

**Russia Retaliates Against Gage.**  
Washington, June 19.—The Russian ambassador, Count Cassini, has communicated to the state department that, in consequence of the action of the American government, through a treasury order of March 9 last, applying tariff restrictions against Russian petroleum imported into this country, the Russian minister of finance, M. de Witte, has issued an order dated June 7, imposing the high tariff rate of the Russian schedule on American white resin or calafin, galaput, white resin under article 82 of the Russian tariff law and increasing the rate on American bicycles under article 173 of the Russian laws.

**Horsemanship by a Woman.**  
Anderson, Ind., June 19.—William J. Wooley, a member of the city council and a steel manufacturer, was assaulted in the street in front of his home by Mrs. Benjamin Lukens. Witnesses say that Mr. and Mrs. Lukens and their son were waiting in front of the Wooley home, and when Wooley appeared Mrs. Lukens rushed upon him with a buggy whip, striking him several times in the face. He grabbed her hands, and then Lukens advanced with a club and knocked Wooley down. Wooley, it is alleged, refused to pay a note for \$1,000 which the husband of Mrs. Lukens holds, and on which he has brought suit to enforce payment.

**Wounded Minister on Stand.**  
New York, June 19.—Rev. John Kelley was the chief witness for the prosecution at the trial of Thomas G. Barker before Judge Blair and a jury in Jersey City. Mr. Kelley declared that he had been shot without warning on Feb. 3, and that he had not seen his assailant. All he knew was that he felt a sharp pain in the eye. The prosecution closed, and Albert C. Wall counsel for the defense, in his opening, said he would show that Barker had been driven to a condition of irresponsibility and insanity by the story told him by his wife.

**Woman Killed; Man Missing.**  
Waycross, Ga., June 19.—Mary Flowers, colored, was found dead in a pool of blood in her room yesterday. Three small children testified that the woman and Arthur Reeves had a quarrel Sunday afternoon. They had been living together as man and wife. Reeves was missing today. The coroner's jury returned a verdict charging him with the murder.

**Detroit Council Cited.**  
Detroit, June 19.—Judge Brooke of the Wayne County Circuit Court today cited thirty-four members of the common council of Detroit to appear before him June 22 and show cause why they should not be punished for contempt of court.

**Cree: Start Sun Dance.**  
Butte, Mont., June 19.—The annual sun dance of the Cree Indians started near Havre yesterday, about 700 participating. Owing to the interference by the authorities last year the usual self-mutilations by the braves have been eliminated.

**Charles Stewart Captured.**  
Tacoma, Wash., June 19.—Charles Stewart, who killed George Swensen near Olalla Saturday, has been captured by a sheriff's posse near Big Harbor.

## GOLF LINK NOTES.

The contest for the Fuller cup at the Milwaukee Country club has reached the semi-finals. Louis Allis will meet Gilbert Allis and C. P. Hulst will meet C. P. Spooner and then will come the finals which will probably be played this week. The favorite is Louis Allis and if he should win the cup this year, it becomes his property, as he has already won it twice. The matches played Saturday were: C. P. Spooner defeated L. T. Boyd 1 up; C. P. Hulst defeated C. L. Forsyth 2 up; Gilbert Allis defeated A. J. Velts 8 up.

Hamilton Vose Saturday won the ball handicap at the links of the Milwaukee Country Club.

**Kneekont Fight on the Ohio River.**  
Evansville, Ind., June 19.—Kid Hubert of Louisville, Ky., put Patsy Corrigan, the Australian, to the bad here last night in three rounds. The fight took place on a barge anchored in the middle of the Ohio river. In the first round Corrigan received a severe bruise about the face and went to his knees by the time the round was over. In the second he was knocked down and took his time in coming back. The third was short and four fast ones on the face put Corrigan on the floor in such a condition that his seconds threw up the sponge.

## AN ABSOLUTE FACT THAT GREGG'S COFFEES ARE THE BEST

Pan-American Exposition Company,  
D. S. Morgan Bldg.,  
Buffalo, N. Y.

Buffalo, N. Y., Jan. 10, 1901.

I enclose you contract for the supply of coffee for the Bailey Catering Company, at the Pan-American Exposition, to be held in Buffalo during the coming summer. In the selection of your coffee, in competition with samples submitted by a number of the largest Importers and Roasters in the country, I have been governed entirely by the quality of the same. My experience with the coffee supplied to me during the past year or so by your house has been so uniformly satisfactory that I feel that I could do no better than to complete this arrangement with you. The amount of coffee which this involves will probably amount to as much or more than has ever been supplied to one consumer in the same length of time, and I congratulate you upon your enterprise in having secured this contract.

Very truly,  
PAN-AMERICAN EXPOSITION COMPANY.

In Janesville and vicinity we are exclusive agents for the Pan-American Blend. We are now prepared to fill orders. Phone us.

**S'SH SLEEP AT LAST**  
**LAXAKOLA DOES IT**

**NO ONE BUT A MOTHER** can appreciate the benefit sleep gives to an ailing, teething, feverish, colicky, fretful infant. Almost distracted by its constant crying, and worn out with weary, anxious care and watching, she tries everything possible to obtain even relief for the little sufferer. With what comfort and delight she sees her little one drop off into a deep peaceful health-giving slumber, after its little clogged bowels are cleared of their poisonous burden by a single dose of Laxakola, the great tonic laxative and mother's remedy. Laxakola is a pure, gentle and painless liquid laxative, and contains valuable tonic properties which not only act upon the bowels, but tone up the entire system and purify the blood. A few drops can be given with safety to very young babies, which will often relieve colic by expelling the wind and gas that cause it. Great relief is experienced when administered to young children suffering from diarrhoea, accompanied with white or green evacuations, as it neutralizes the acidity of the bowels and carries out the cause of the fermentation. LAXAKOLA will aid digestion, relieve restlessness, assist nature, and induce sleep. For constipation, simple fever, coated tongue, or any infantile troubles arising from a disordered condition of the stomach it is invaluable. Laxakola, the great tonic laxative, is not only the most efficient of family remedies, but the most economical, because it contains two medicines, viz: laxative and tonic, and at one price. No other remedy gives so much for the money. At druggists, 5¢, and sent for free sample to THE LAXAKOLA CO., 132 Nassau Street, N. Y., or 358 Dearborn Street, Chicago.

## MUNICIPAL AESTHETICS.

The above topic was so thoroughly discussed at the last meeting of the Twilight club, that an excuse for referring to it again is its importance. Efforts are being made in Chicago and elsewhere to stimulate the citizens to beautify their lawns, which under the most careful planning and expensive decorating can be made little better than Janesville lawns which are adorned by Nature.

To one who has lived in Chicago the greater part of his life, Janesville appears as truly the "Bower City." The fact that Nature has done so much for us is perhaps the reason but it cannot be the excuse for the citizen's doing nothing to help Nature. The opportunities we have for making veritable Gardens of Eden out of most of our lawns are certainly ample to incite the effort.

The one great advantage the citizens of Janesville have over the people of any large city, is large lawns. Many homes in a city, costing from ten to fifteen thousand dollars do not have any front yard and only a few square feet of back yard, which is so taken up with coal bins and clothes lines as to offer little opportunity for beautifying.

The mere abundance of shrubbery does not promise beauty; it is rather the judicious arrangement of trees and shrubbery that guarantees artistic effect.

The objectionable wood pile or sheds of the back yard can be entirely screened by climbing vines and roses, even a row of sun flowers or castor beans is a pleasure to the eye when compared with what they hide.

Then too, the alleys and lanes have always been an eyesore to the aesthetic nature. Not only should they be cleaned in the spring, but they should be kept clean and free from rubbish during the summer. A back fence covered by a Boston ivy or creeper is an influence towards cleanliness and order.

The movement which has been inaugurated in our public school yards is most commendable, and what a change one can see in some of the school yards, which seemed almost past redemption. This movement must be started by the individual and so maintained, and it will surely bring its reward in increased population, and best of all, increased personal and civic pride in the results of combined efforts toward the aesthetic.

## MR. PHILLIPS' SCHEME.

In his address at Minneapolis, Corn King Phillips advocated a tax of one cent per bushel on corn, to be used in erecting elevators where the farmers could store their corn until prices are satisfactory. So far as this proposition goes it is similar to the general plan of warehouses, advocated before by several politicians, and probably is a good scheme for the farmers, as they could negotiate their warehouse receipts for ready cash at any time.

But Mr. Phillips makes another proposition which smacks too much of Bryanism to ever be successful. He proposes that the government establish the price of corn by promising to pay forty cents per bushel for all the corn brought to its granaries.

This is nothing less than the free coinage of corn instead of silver. If the government will take fifty cents' worth of silver and make it one silver dollar, that fixes the price of silver; so if the government will pay 40 cents for corn, that must be the price for every one, no matter what the supply and demand.

Then if the rule is good for corn it must be applied to all commodities, for the government cannot discriminate in favor of corn over wheat, oats or even wearing apparel, and then we would have a pretty state of affairs at Washington.

Free coinage is dead as a principle and it would take more than a corn king to recover it.

## SOMETHING FOR NOTHING.

A man is facing a Chicago court because he "took people's money and gave them nothing in return."

Mr. Chester's statement is awkward to many respected people whose only means of support is in planning to take people's money and give them nothing in return. They are not considered law breakers, but morally there seems to loom up before our eyes the verdict of "guilty."

The broker who gets a margin because of the other fellow's inability to consummate the transaction, gives nothing for something. The man who waters stock and makes charges so as to pay dividends gets something for nothing. The man who deals in "futures," gets a good deal for nothing. If the moral law could be enforced, many respected citizens would be brought to court.

## THE FREE PRESS.

The new Milwaukee morning daily, "The Free Press," has made its ap-

pearance, and is a very creditable looking sheet. The general make-up of the paper is very similar to the old Milwaukee Sentinel.

The new journal proposes to fill a long felt want, the nature of which is not defined very clearly. It will be republican in politics and "half-breed" in principle. The editorial staff with H. P. Myrick at the head, possesses ability and energy.

The field ahead of the new paper appears very attractive to the promoters but the test of time is always necessary to journalistic success.

Plenty of money, a liberal supply of energy and good horse sense, may put the paper on a paying basis. The Gazette extends congratulations and says "God Bless you."

The shirt waist is causing a good deal of trouble for their wearers. There are places and times when this garment will not be objectionable or conspicuous; sensible people try not to attract attention by their clothing.

The southern constitutional conventions show to the world that slavery still exists there in the worst form. Some of the southern states ought to be treated to a dose of Platt Amendments.

It is a shame to western athletics that Beloit college should be deprived of the honor of belonging to them as winners of the base ball pennant. Some members of the "big nine" are so small as to need a microscope to find them or their team.

Of course, we expected our battle ships to beat the Illinois, she never will take a back seat in peace or in war.

The register of the lobbyists and the filing of their expense accounts is a farce which covers a multitude of schemes with a show of legitimacy.

Dowie should not be so afraid of being kidnapped, nobody wants him; and anyway, wasn't Elijah kidnapped?

The season of poorly built grand stands and green cucumbers has arrived.

Why not make our river bank a thing of beauty instead of a dumping ground.

## Ullins-Williams Wedding.

At the parsonage of the Congregational church on Monday evening, Rev. R. C. Denison spoke the impressive words which joined in matrimony's bonds, Miss Minnie Ullins of the town of La Prairie and Lynn D. Williams of this city. The happy couple was unattended and went to housekeeping immediately in a cosily furnished flat on South Main street. The groom is employed in Tarrant's livery stable and he and his bride will have the best wishes of their friends for their future happiness and prosperity.

## To Celebrate First Mass.

Rev. Eugene McCarthy, who was ordained to the priesthood last Sunday will celebrate his first mass at St. Patrick's church tomorrow morning at 10:30 o'clock. It will be solemn high mass and Father McCarthy will be assisted by visiting priests and by the chorus choir of St. Patrick's church with orchestra accompaniment. A large number of priests from other cities will be present in honor of the occasion.

## Lawn Social Postponed.

The Norwegian Lutheran church will give a lawn social in Riverview park on Friday night instead of Thursday night as was planned. A musical program, ice cream and cake will be served. Everybody is welcome.

## THOROUGHGOOD IS OUT WITH DENIAL

In Interview with Alderman Hutchinson On June 8 No Mention of Prospect Ave. Was Made.

Editor Gazette: I see Alderman Hutchinson takes exceptions to my article of a few days ago. In my interview with the alderman on Saturday, June 8, the question of putting the prospect avenue tracks on the established grade was not mentioned. The first time it was mentioned in my presence was at a committee meeting held at the city offices on one afternoon of last week. The placing of the track four inches higher than the present track was spoken of and Alderman Hutchinson seemed to favor it; however, he made no objections. These are the facts whatever the alderman may say to the contrary.

What I stated in my article was not intended to reflect upon the alderman. I have a great regard for the gentleman. But his being a public officer he becomes public property and is subject to criticism. He must remember I have had my full share of it both pleasant and unpleasant and swallowed it whole, still feeling kindly toward the writers. I have before stated my views on this railroad situation and while it is not a pleasant or satisfactory one to me I am willing to accept it on the promises made by the C. M. & St. P. people and by the aldermen seeing these promises fully carried out. It is useless my saying more about the advantages a city receives from railroads.

I shall continue to encourage them and would use my best endeavors to get another railroad company crossing Janesville—for every foot of railroad track is a benefit to the city as well as to individuals and why should we not feel pleased if it is beneficial to the company laying them. Now that's the kind of a man I am, those to the contrary notwithstanding.

In conclusion the alderman drawing these lines from me has my best wishes and I believe him fully capable of attending to the Second ward interests, but his and my way concerning the new freight depot matter does not come together. He said he had not changed his mind. I say I am not and never have been pleased with the situation. I have concluded, now that the freight depot is a foregone conclusion to remove any objections of mine and hope to see that part of the street between North Main and Bluff streets put in good shape, giving us at least one block fit to look at and also a settlement of this unpleasant railroad situation.

JOHN THOROUGHGOOD.

## COUNTRY SCHOOLS TO RAISE FLAGS

There will be a flag raising in the Merrifield school district, comprising the towns of Milton and Fulton tomorrow afternoon. Ex-Governor Hoard, State Supt. Harvey, Superintendents Throne and Ross and other notables will be present. It is expected that a very large crowd will attend.

The Paul district immediately south of the Merrifield district will have a flag raising on Friday, June 21.

## PALMA FOR PRESIDENT.

Head of Cuban Junta Is Being Urged to Make the Race.

New York, June 19.—The Tribune says: Horatio S. Roberts, formerly counsel to the Cuban junta in this city, who came here a few days ago from Cuba, will return to Cuba this week to report to the friends of Gen. T. Estrada Palma on the possibility of Gen. Palma's accepting the nomination for the presidency of Cuba. Gen. Palma came down from Central Valley, N. Y. to talk with Mr. Rubens, and, although he said that he did not want to run, Mr. Rubens thinks he can be persuaded to accept the nomination. Mr. Rubens said: "Gen. Palma is not seeking office, but I do not think he will be able to resist the demands of the people of Cuba. They are almost a unit for him. Palma made himself popular with the Cubans by the way he conducted the affairs of the Cuban junta in this city. A genius is not needed as president of Cuba, but an honest man. The only possible opponent of Palma is Gen. Bartholomew Maso, the vice president of the revolutionary provisional government in Cuba. The reason that there was trouble about the acceptance of the Platt amendment by the Cubans was that it was not understood there. The election will probably be held in the autumn and the inauguration of the president will be held in January."

## BUS LINE RUN TO GLEASON'S SHOW

Prof. Gleason, the horse tamer, who will open his great exhibition at the fair grounds this evening, has arranged to have a bus line run from the end of the street car line to the grand stand, so that no one will be compelled to walk from the gate to the stand. Passengers will be carried free, no fare being charged on the carriages which are furnished by the management. This is a thoughtful courtesy, and will doubtless increase the attendance at the exhibition which has attracted immense audiences wherever it has been given.

STATE AGENTS. Janesville, Wisconsin.

Suite 329-331 Hayes Block. Correspondence invited. Local agents wanted.

## BOTH ROADS ARE IN GOOD SHAPE

The two big roads in Wisconsin have about completed their extensive improvement work in the state and this year will do very little. General Manager Gardner of the Northwestern said that the road would do little this season beyond completing the building of the line from Princeton west, and the laying of some fifty miles of new steel in scattering sections where it was needed. A great deal of work had been done last year and all that was left was a little graveling that was being done. Some extensive work was to be done in the Dakotas but none in Wisconsin. In the matter of equipment Mr. Gardner thought that the road was in good shape now and nothing more was to be done at once. With the cars that are now being built the road will have some forty thousand cars with which to handle its traffic.

General Manager Williams of the Milwaukee road also said that his line had about completed what was to be done for a few years. The La Crosse division had been practically rebuilt and the double-tracking to Portage that had been talked of was not to be done, as yet as the officials were of the opinion that with the Northern division in good shape that could take a share of the traffic and relieve the main line.

## ONE MORE PRETTY WEDDING IN JUNE

MISS BERTA SCOFIELD AND CLEMENT NOYES UNITED.

Impressive Ceremony with Beautiful Surroundings at the Home of the Bride's Mother in This City Last Evening—Dainty Wedding Supper Followed the Marriage.

The home of Mrs. Sarah Scofield, 302 Milton avenue, was transformed into a bower of beauty last evening in honor of the marriage of her daughter, Miss Berta Scofield, and Eugene Clement Noyes, of Minneapolis. A company of about seventy-five relatives and friends was gathered in the spacious parlors to witness the impressive ceremony, which was solemnized amid the most beautiful surroundings.

The house was elaborately and artistically decorated, a profusion of palms and cut flowers being used effectively. A unique and beautiful decoration was used in the two parlors and the bridal dining room, festoons of white satin ribbon and smilax being looped from the ceiling and being caught up in the corners with long ends of the ribbon and the dainty trailing vine.

In one parlor great bunches of deep red roses nodded gracefully but the south parlor where the ceremony was performed was all in pink roses and green foliage, together with the draperies of white ribbons. The deep bay window was filled with palms and ferns, the bank of green extending to the ceiling while against this background of rich green was a broad arch in which pink roses of different hues blended their delicate tints harmoniously.

Beneath this archway, the bridal party took its stand, entering the room to the strains of Mendelssohn's wedding march promptly at 8 o'clock. The bride attended by her sister, Miss Jessie Scofield, as maid of honor, marched through an aisle formed by bands of white ribbons, held by four ribbon girls, Miss Floy Scofield, sister of the bride, Misses Frances Ingle and Kathie Scofield, cousins of the bride, and Miss May Merritt, cousin of the groom. The bride and her maid of honor were handsomely gowned in white, the bride's dress being a rich creation of sheer white trimmed with applique lace and satin ribbon. She carried a bouquet of choice white roses.

The groom was attended by Dr. Edwin Nelson Nash, of Chicago, and as the bride and groom and their attendants took their places before the bridal bower, the ribbon girls gathered up the ribbons and joined the wedding party. Then the sacred vows of marriage were exchanged, Rev. J. T. Henderson, the pastor of the Presbyterian church, being the officiating clergyman and the beautiful ring service being used. During the entire service, sweet strains of music floated in through the windows from the porch where the Orpheus mandolin orchestra was seated. The orchestra played exquisitely throughout the entire evening.

Following the ceremony and congratulations a dainty and tempting wedding supper was served. Mrs. Louise Bowerman being the caterer. The guests were waited upon prettily by Misses Floy Scofield, Frances Ingle, Kathie Scofield, May Merritt, Lucy Bigelow and Leila Smith.

The dining room in which the table for the bridal party and the guests of honor was spread was beautifully decorated in green and white. Loops of ribbon and smilax extended from the chandelier to the four corners of the table where they were caught with dainty sprays of asparagus fern. The side board was also garlanded with green in which white rose buds were entwined. White roses were also used in profusion. The rest of the guests were served at small tables one of the dining rooms being entirely in pink carnations.

The bride is one of Janesville's popular young ladies and not only possesses rare personal charms but has a happy disposition and is accomplished and capable. She is a graduate of the Janesville High school in the class of '96.

The groom is the son of Mr. and Mrs. Clement Noyes, of Minneapolis, and is well known here, the family having resided in this city until about three years ago. Mr. Noyes is a graduate from the University of Minnesota in this year's class and has recently been admitted to the practice of law in that state. He is young man of pleasing personality and of enterprise and his professional career will doubtless be a successful one.

Mr. and Mrs. Noyes immediately left on a wedding trip, keeping their destination a profound secret. They will make their home in Minneapolis and will reside with the groom's parents for the present. They will be attended by the best wishes of a host of friends. The wedding last evening was attended by many relatives and friends from other cities.

## WOODMEN FLOCK TO FREEPORT, ILL.

LARGE DELEGATION FROM JANESVILLE TO BIG PICNIC.

Will Leave St. Paul Depot at 8 O'clock Tomorrow Morning - They Are Bent on Getting the 1902 Event for This City—Crowds Expected at Freeport.

Accompanied by a brass band of twenty-five pieces, a large delegation of members and friends of Florence Camp No. 366, Modern Woodmen of America will leave this city tomorrow morning on a special Chicago, Milwaukee & St. Paul train for Freeport, Ill., to attend the annual Woodman picnic. The special will leave the C. M. & St. P. depot at 8 o'clock and returning will leave Freeport at 7:15 o'clock in the evening.

The Porter band which has been hired to accompany Florence camp, will arrive in the city tomorrow morning at 6:40 o'clock and a delegation of at least three hundred people is expected to leave this city. The committee of arrangements at Freeport has notified Clerk S. M. Fisher that Florence camp will have headquarters at the United Brethren church. The special train will be decorated with long streamers, bearing the name of the camp. Local Woodmen are positive of securing the picnic for this city in 1902, it having already been decided that next year's picnic is to be at Rockford.

The picnic association includes nearly all the Woodmen camps in northern Illinois and the southern tier of Wisconsin counties and a great deal of interest is manifested in the annual outings. Freeport was awarded the picnic a year ago, and ever since committees have been making arrangements. Edward Wagner is the president; Dr. R. J. Burns, secretary; R. Botdorf, treasurer and Dr. W. B. Peck, chairman of the reception committee. It is expected that the gathering will be the most successful ever held.

Freeport is expecting from 30,000 and 40,000 people including members of the organization from all over the picnic territory and special trains will pour immense delegations into the city. Head Consul Northcott, the lieutenant governor of the State of Illinois; Head Attorney J. W. White, Head Physician E. L. Kerns and others will deliver addresses, and Mayor Huttenkir will make the speech of welcome, to be responded to by Rev. F. F. Forville of Elgin.

The Shelbyville quartet club will furnish vocal music, and thirty or more bands will be here. There will be all sorts of amusements and prizes for Foresters, Royal Neighbors, bands, etc.

The great parade will take place tomorrow morning, upon the arrival of all the delegations. There will be something doing all day and Freeport has promised to entertain its visitors handsomely.

LOCAL RESIDENTS INVESTING.

Mexican Plantation Lands Have Interested Many Rock County People.

If one is to judge from the large number of inquiries that have been made of late at the local office of Merrick & Hutson, it is quite evident that many Rock County residents thing will of Mexican plantation lands. Merrick & Hutson have rented suite 329-331 on the third floor of the Hayes block. The gentlemen are not strangers here but are well known to a large circle of friends as Rock county has been their home for some time.

Mr. Hutson for a number of years resided in Edgerton, while of late Mr. Merrick has made Lodi his home. The plantation shares that they offer the public are limited in numbers and are already paying dividends. The land is known as the Philadelphia plantation consisting of 5,000 acres of rich soil in the south east section of Mexico, near the coast and 850 miles from New Orleans by boat. An adjoining plantation known as the Chicago plantation has paid a dividend of 9 per cent, on all monthly payments up to May 1st, 1899. This year they have paid 12 per cent, and have crops on the ground sufficient to pay an additional 8 per cent., making a total of 20 per cent. The stock in this association is \$100 above par and no shares can be had even at that. The same parties who are developing this plantation are developing 5,000 acres one and one-half miles from the Chicago plantation, and the management will be the same in every way. It is this valuable land of the Philadelphia plantation that Merrick & Hutson are now interesting many local investors.

## FIREMEN ON THE ROAD TO ELKHORN

State Tournament Opens in That City Today—Edgerton Will Have a Large Delegation.

Firemen from all parts of the state gathered at the Northwestern and St. Paul station today on their way to Elkhorn to attend the State Firemen's tournament. The most of them wore the regulation blue uniforms with the regulation silver buttons. The Reedsburg fire department, thirty-five strong had a special car attached to the 10:10 train on the Northwestern. They had a handsome brown uniform and made a good appearance. They have a crack hose team and hope to carry off the prize.

As usual Edgerton sent a large delegation. They had a special car which was attached to the 10:35 on the Janesville & Southeastern. They have a fine hose team and hope to get some of the numerous prizes offered. They were accompanied by the Edgerton cornet band and had a colored mascot along with them.

The Monroe department was also represented by a good sized delegation and a hose team. Fort Atkinson, Jefferson and Watertown were also represented and hope to be able to bring back some of the money.

A number of the members of the Janesville fire department are figuring on going to Elkhorn to attend the tournament. It is not definitely decided just who will attend. Tomorrow is the big day and those who attend from this city will take the early train over the Janesville and Southeastern.

## THE NEWS FROM COUNTY TOWNS

THE GAZETTE AGENCY,  
W. W. LAMAR, Manager.  
Milton, Wis., June 18, 1901.

Ed. Coe, in an article on the Fun Hunter at Lake Koshkonong, in the Whitewater Register, has the following: "A picnic of the Milton High school graduating class afforded much diversion one day to the campers. They were anxious for a ride in the sailer, and finally a small load was taken, although every wave wore a white cap. All the party bore the test well except one dainty little miss, who was doubtless more accustomed to angel's food and downy environments than thrashing over the wild sea waves. She turned pale and showed other alarming symptoms of a crisis. But the skipper, by swift sailing and encouraging words, succeeded in landing her safely with all her contents retained. Several of the girls belong to the ladies' base ball nine and one of them could throw a ball to beat any man in camp. The effect of higher education was the subject for vociferous discussion that evening."

During the storm Sunday afternoon lightning struck G. W. Fetherstone's house and tore a hole in the roof, but did not shock the inmates nor start a fire. A tree in front of N. W. Crosby's was also struck.

Flag day was more generally observed than heretofore. The business places and many private houses floated "Old Glory."

Milton was represented at the N. W. association held at Walworth by a large delegation. Fifteen took the 9:55 train Friday morning from this station.

The much needed rain arrived Sunday and another installment is due. Rev. J. H. Hurley and son of son, of Dodge Center, Minn., were in town last week.

## Scrofula

Scrofula is an unwelcome legacy, but one which the children of blood poisoned parentage must accept, with all its humiliating consequences. It is an inheritance that makes one poorer; that brings wretchedness and disease instead of health and riches; for the child whose ancestral blood is tainted with Scrofula or the loathsome virus of Contagious Blood Poison is unfitted for the arduous duties of life so long as any of the transmitted poison remains in its veins. Scrofula manifests itself in various forms; swollen glands about the neck and throat, catarrh of the head, weak eyes, hip bone disease, white swelling and offensive sores and abscesses are familiar symptoms, attended usually with loss of strength, poor digestion and pale or bloodless complexion. The skin is sometimes most dreadfully affected, eruptions breaking out on all parts of the body. Scrofula destroys bone, tissue and flesh; no part of the human system escapes its withering, benumbing touch.

When nineteen years old, and about one year after the birth of my first child, the glands on the left side of my neck began to swell. Four of the places were lanced and became open running sores; rashes came under my left arm, and the discharge was simply awful. The doctors said I had the worst case of Scrofula they had ever seen. I took iodine of potassium, but this nor the other drugs given for this disease brought relief. When the physicians advised me to have the glands removed, I decided to try S. S. S. A few bottles cured me completely; no signs of the terrible disease are left.

MRS. RICHARD WASSON, Golden Corners, Ohio.

Parents whose blood is poisoned by their own misdeeds, or who themselves may be suffering for the sake of some remote ancestor, must restore their own blood to its normal purity and strength, or they cannot expect healthy, robust children.

S. S. S. cures Scrofula, like other diseases of a deep-seated, constitutional character, by restoring life and purity to the profoundly poisoned blood, and the rich, strong blood that is carried to the swollen and diseased glands absorbs and destroys the tuberculous deposits, and the painful, disfiguring sores and other evidences of Scrofula disappear.

S. S. S. should be begun immediately upon the appearance of the first symptoms, or where there is a known predisposition to Scrofula. Our medical department will be found of great help to those who are struggling with this wasting disease of heredity or any other blood trouble, and we invite you to write us. Should you or any member of your family need advice, our physicians will cheerfully give the information you desire, for which we make no charge. Book on Blood and Skin Diseases free.

### Lonely Homes

A home is never complete without children. Yet many homes are childless. Many wives are desolate for the lack of a child to love. Their lives are aimless—void of the high motives of motherhood. While barrenness is causing incalculable sadness and sorrow, it exists in most cases on account of some little female trouble, which Wine of Cardui would speedily set right. This pure Wine regulates the disordered female organs by building up the worn out nerves and regulating the menstrual flow. It restores the fallen womb to its proper place. By strengthening the generative organs, it makes pregnancy possible where barrenness exists. You can depend on

### WINE OF CARDUI

Suffering women all over the land have been depending on it for seventy-five years. No more convincing proof can be given than the testimony of Mrs. Benson, who is only one of thousands of women to whom Wine of Cardui has brought a permanent cure. Many cases of miscarriage—those which have been avoided by timely use of the Wine. You are asked to try Wine of Cardui and Theodor's Black-Draught, its companion medicine. Nine out of ten cases of female trouble, barrenness included, yield to them. All druggists sell \$1.00 bottles of Wine of Cardui.

Vanderhoof, Ark., April 3, 1900.

Last May I had a miscarriage, which was followed by flooding. I read your Almanac and my husband got me a bottle of Wine of Cardui and it stopped my flooding and restored my fallen womb to its place. Now I am cured after taking three bottles and have another to take which I got this morning. I am expecting to become a mother and Wine of Cardui will be my doctor.

## WONDERS OF THE COLORADO "LOOP"

JANESVILLE LADY DESCRIBES A TRIP OVER THE LINE.

The Building of This Almost Spiral Railroad Over the Mountains of Colorado Considered the Most Wonderful Piece of Engineering in the World.

Editor Gazette: Before leaving Janesville for Colorado, we obtained some pamphlets descriptive of the state and its wonderful scenery. Among the many engravings in one of the pamphlets, that of the loop, claimed much attention, yet we scarcely ever expected to behold its wonders. But it is the unexpected that happens, and one bright morning last week found us on our way to this famous loop. Leaving Denver we passed through a fine stretch of country where many fine agricultural products met our view. Of course, every thing is watered by irrigation. Colorado has always been considered by us more of a mining state than one devoted to agriculture, yet we are told that of the fifty-seven counties composing the state, fifty-three are almost entirely agriculture. Golden was our first stopping place, the state reformatory is located there.

After leaving Golden the ascent of the grade is very marked. The train passes along the banks of Clear Creek, a rushing, roaring stream, varying in width from twelve or fifteen feet to several rods. Immense rocks are all along in the bed of the stream, against which the fast rushing waters beat and break into spray and silvery cascades. Rising abruptly from the side of the stream are the grand old piles of solid granite, hundreds of feet above our heads, onward the train rushes crossing and recrossing the angry stream. As we neared Idaho Springs we noticed numerous little cabins located away up on the sides of the apparently inaccessible mountains. These are the homes of the miners and the many tunnels we observed in the mountain sides are a novel sight to those who behold them for the first time.

While gazing at the picturesque scene before us, a gentleman on the car called our attention to "Hanging Rock" under which we passed a moment later. "Mother Grundy" and the "Lion's Head" were also plainly discerned. Idaho Springs is the first town of importance on our trip. It is a very important mining camp. Also has many springs of medicinal value, and is quite a noted health resort. A short distance out from the Springs we noticed a wagon trail winding along the steep mountain side, over which the ore is removed to the valley below and by which the miners receive their supplies.

We were now several thousand feet above sea level, and near enough to the snow capped mountains to be within walking distance, so we thought, until told that we are yet over twenty miles from them. We soon steamed into the station of Georgetown, a beautiful little city of two thousand inhabitants, nestled in a basin of the mountains. There the real "Loop" begins, winding hundreds of feet above the town. Another train was only a few moments of time behind us, and so we crossed the highest bridge, we gazed from the car windows on the other train first crossing the bridge directly below us.

Handkerchiefs were waved from our train and answered by a vigorous waving from the occupants of the lower train. Then they disappeared from our sight, to reappear again in a few moments. Thus we sped along, winding in and out and always upward through these wonderful mountains. The building of this road is considered the most wonderful piece of railroad engineering in the world. We saw the train behind us six different times and our own engine was plainly seen many times while rounding the curves, although drawing but three coaches.

A splendid view of the little city so far below is obtained while crossing the bridge eighty-five feet above the tracks beneath. Still we rushed onward and upward four miles farther on, when we reached Silver Plume the terminus of the railroad.

Here we had two hours to rest ere we began our return trip. Most of the passengers were hastening onward to enter one or the other of the mining tunnels and we followed in their lead. We left our lunch in the office and after paying twenty-five cents each for the privilege, we entered the Mendota mine, where we were all provided with lanterns, and accompanied by a guide, we passed along the passageway, lighted only by the feeble rays of the candle in our lanterns. This tunnel is, as I presume others are, eight feet wide and seven feet high, supported by heavy timbers.

On either side of the narrow plank we are walking on trickles a little stream of water and on either side runs an iron pipe, which conveys fresh air into the tunnel. We went 1,200 feet into the tunnel and were then 600 feet below the surface. We had then reached the engine room that supplies the power for bringing up the ore from a shaft 800 feet below us. Remaining here a few moments, we concluded to return instead of going any further into the tunnel, for the passage is damp and chilly.

So we turned about and were soon

in the bright sunshine again. Some of the party ascended the mountain to a greater or less height to eat their dinner among the rocks. Here the mountains are two thousand feet above our heads. Silver Plume has an altitude of 9,000 feet. We hurriedly partook of our lunch and then rambled away amongst the broken fragments of rocks to collect some of the most beautiful specimens to take with us mementos of our very pleasant trip. Copper, lead, silver and possibly a sprinkle of gold, is contained in these pieces that lay scattered about us.

As it neared train time we turned our backs on all the beauty that was both beneath our feet and on all sides of us, and with a feeling of sadness took our seats in the car to return to Denver, feeling that it was probably the last time that many of our party would ever behold these beautiful scenes.

## FLABBY FELLOWS

WHO WANT TO BUILD UP THEIR BODIES WILL FIND THE "ONE THING NEEDFUL" IN

**DR. PIERCE'S GOLDEN MEDICAL DISCOVERY**

The body is built up from the food we eat. But before food can be assimilated by the body it must be prepared for assimilation by the stomach and other organs of digestion and nutrition. Food does not feed when the stomach is "out of order." The result is, weak muscles and flabby flesh. Golden Medical Discovery heals diseases of the stomach and digestive and nutritive system. It works with Nature to make mainly muscle and firm flesh.

In a letter received from A. D. Weller, Esq., of Pensacola, Fla. (Box 544), he states: "I have, since receiving your diagnosis of my case, as stomach trouble and liver complaint, taken eight bottles of the Golden Medical Discovery and must say that I am transformed from a walking shadow (as my friends called me) to perfect health."

### OPERATORS MAY GO OUT.

General Strike of Lackawanna Telegraphers Is Threatened.

New York, June 19.—All the telegraphers of the Lackawanna railroad are members of the Telegraphers' union, says a World dispatch from Scranton, Pa., and during the past six months the grievance committee has been engaged in formulating grievances regarding promotions. It is now alleged that when the committee of five waiting upon Supt. Rine to submit their grievance their resignations were demanded. When they made this report there was a stir among the operators and a preemptory demand was made for the reinstatement of the men. The demand has not been conceded, and the operators, it is said, are now preparing for a general strike over the entire system.

### Shipyards Shut Down.

Newport News, Va., June 19.—The shipbuilding works were shut down at 6 o'clock yesterday afternoon and 6,500 men are thrown out of work. The machinists are restless, but say they are receiving money from the national association.

### Strike at Dayton Settled.

Dayton, Ohio, June 19.—The strike at the National Cash Register Works has been settled, and the factory reopens to-morrow morning.

Miss Florence Welch is visiting relatives in Illinois and Kentucky.

### Rice Will Contest Is Up.

New York, June 19.—The contest over the two alleged wills of the late William Marsh Rice, the millionaire, whom Charles F. Jones, his valet, confessed he murdered while under the influence of Lawyer Albert T. Patrick, was on the calendar for hearing before Surrogate Fitzgerald today. The case was postponed until tomorrow.

### Big Fire at Salina.

Salina, Kan., June 19.—The plant of the Kansas Ice and Cold Storage Company was burned. The loss is about \$180,000; insurance, \$109,347. Of the loss \$100,000 is on stock, consisting of produce owned by merchants and insured for about \$65,000. About fifty insurance companies carried policies on the building and stock.

### Copper Injunction Denied.

Trenton, N. J., June 19.—The Court of Errors and Appeals today denied the application on appeal of Calvin O. Geer and others for an injunction to restrain the absorption of the Boston and Montana and Butte and Boston Mining companies by the Amalgamated Copper company. This ends the case.

### Married Teachers Must Go.

Omaha, Neb., June 19.—The board of education today decreed that all public school teachers who marry lose their positions the day of their wedding. Thirty of the public school teachers are married and thus affected by the new order.
